Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

This is a response to the election filed on 8/4/05. The examiner acknowledges:

The election of product group I claims 1-7 without traverse.

The non-elected method claim 8 is retained for possible divisional application.

Thus, claim 8 is withdrawn from further consideration.

The applicant is required to cancel the non-elected claim in the next communication, the restriction is final.

Claim Objections

In claim 1, line 1; "multiple exposure" should be changed to - - multiple exposures - -.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1-7 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 1 is rejected because the combination of limitations "a mask pattern under a design having the width of an aperture pattern smaller than the width of a light-shielding pattern" on lines 3-5 and "the mask pattern under a design having the width of an aperture pattern greater than the width of a light-shielding pattern" on lines 6-8 finds no clear support in the specification.

Claims 2-7 are rejected because they depend from on claim 1.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 is rejected because:

Art Unit: 2825

a. The phrase "**as in case**" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

b. The combination of limitations "a mask pattern under a design having the width of an aperture pattern smaller than the width of a light-shielding pattern" on lines 3-5 and "the mask pattern under a design having the width of an aperture pattern greater than the width of a light-shielding pattern" on lines 6-8 is unclear, does not make sense, contradicting, and thus indefinite.

c. It is not clear that "mask pattern" on line 1 is the same as "mask pattern" on line 3. Claim 1 must define any differences between these two for clarification and add "said/the" and "first/second" to these two accordingly for clarification.

d. It is not clear that "pattern pitch" on line 2 is the same as "pattern pitch" on line 6. Claim 1 must define any differences between these two for clarification and add "said/the" and/or "first/second" to these two accordingly for clarification.

e. It is not clear that "aperture pattern" on line 4 is the same as "aperture pattern" on line 7. Claim 1 must define any differences between these two for clarification and add "said/the" and/or "first/second" to these two accordingly for clarification.

f. It is not clear that "light-shielding pattern" on lines 4-5 is the same "light-shielding pattern" on line 8. Claim 1 must define any differences between these two for clarification and add "said/the" and/or "first/second" to these two accordingly for clarification.

Claims 2-7 are rejected because they depend from claim 1.

Claims 2-3 are rejected because it is not clear that "the mask pattern" in these claims refer to "mask pattern" on line 1 of claim 1 or "mask pattern" on line 3 of claim 1.

Claims 4-5 are rejected because it is not clear that "the aperture pattern" in these claims refer to "aperture pattern" on line 4 of claim 1 or "aperture pattern" on line 7 of claim 1.

Claims 6-7 are rejected because it is not clear that "the light-shielding pattern" in these claims refer to "light-shielding pattern" on lines 4-5 of claim 1 or "light-shielding pattern" on line 8 of claim 1.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Dinh whose telephone number is 571-272-1890. The examiner can normally be reached on Monday to Friday from 8:30am to 5:00pm.
